

# btaANALYSIS

## Your travel data clearly visualised

### Keep track of your travel data, always and everywhere!

btaANALYSIS is the eagle's eye to help you keep track of your travel data. At the same time, you gain essential insights and decision-making tools that are important for the sustainability and profitability of your company.

#### Your travel data – clearly visualised...

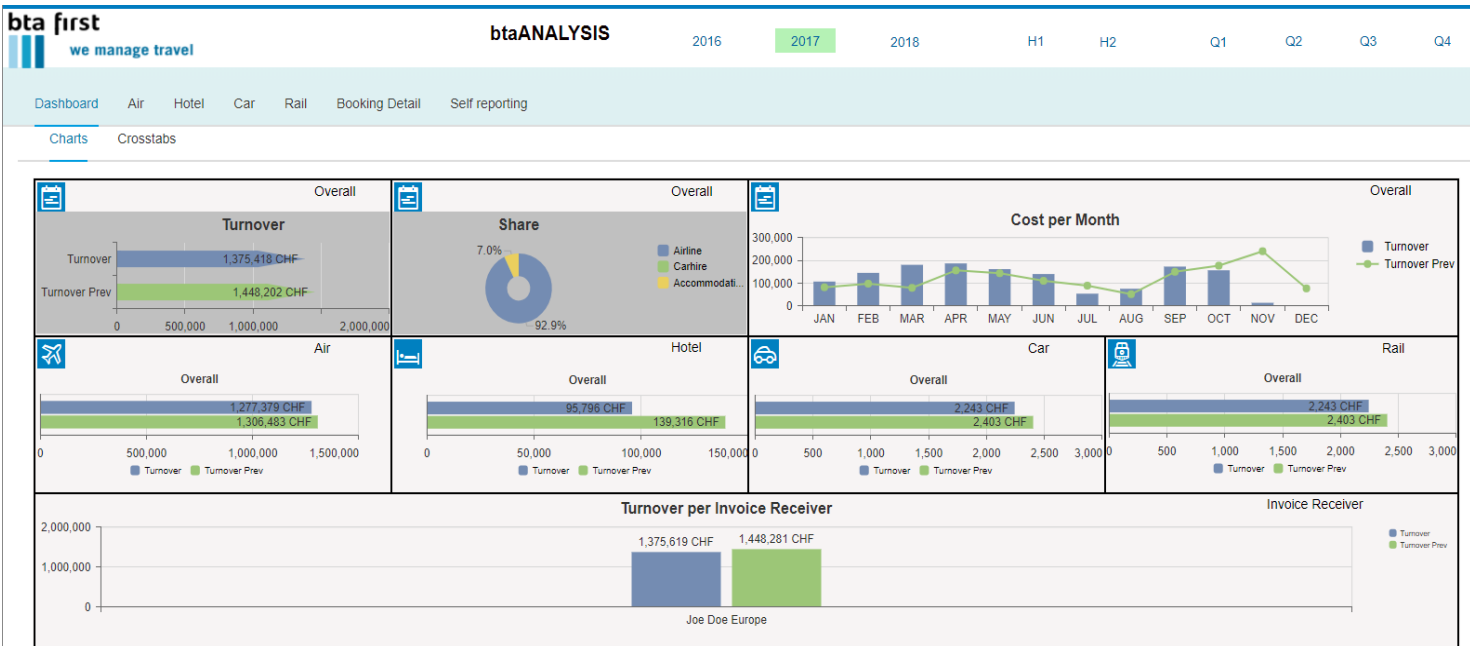

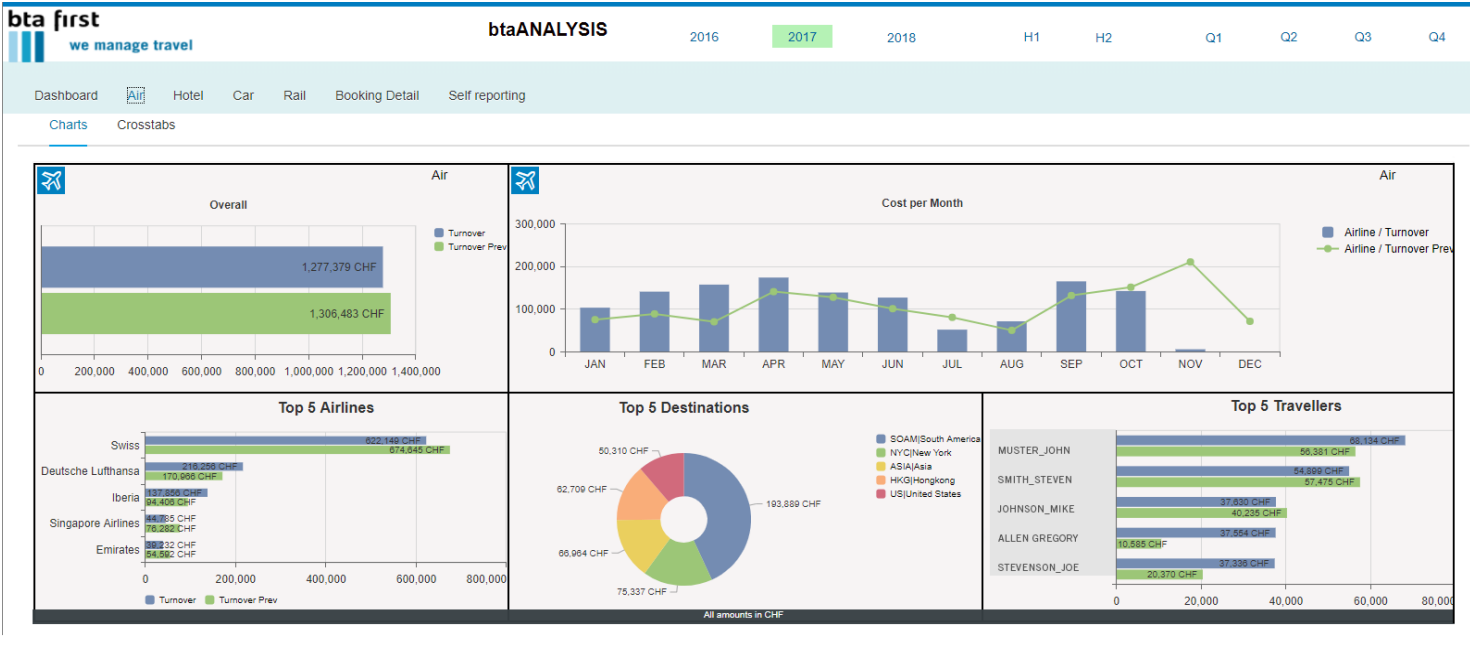

- ▶ Convenient access via secure login, no local installation required
- ▶ Comprehensive visualisation – categorised by individual product groups
- ▶ Up-to-date data – upload of the most recent transactions overnight
- ▶ Location-independently available 24/7
- ▶ Various hierarchy levels with a variety of user rights (premium)
- ▶ Presentation as overview, chart, export function for Excel
- ▶ Sample and function overview see reverse

#### Added value for you...

- ▶ „Basic” or „Premium” versions individually tailored to corporate requirements
- ▶ Maintain an overview and total control over your travel data at all times
- ▶ 360° overview of all travel bookings
- ▶ Secure data storage in Switzerland
- ▶ Immediately available
