btaCLIMATE - for the sake of the environment!

We make it possible and support you in doing so!

With **btaCLIMATE** you compensate the CO2 emissions caused by your travel activities. Every trip is shown in detail and transparently on the invoice. Thanks to our cooperation with the well-known non-profit **myClimate** foundation, we have at our disposal a direct data interface to neutralise CO2 emissions. Your compensations are directly reinvested in current climate protection projects. Apart from the corresponding compensation certificates, we will provide you with periodic evaluations and analyses. Take the first step now - for the sake of the environment!

Your investment: definitely worth it!

- ▶ Experienced and time-tested Swiss climate protection organisation
- ▶ International operations, broadly based sponsorship
- ▶ 100% transparency: automatic disclosure on every statement
- ▶ Investment in sustainable climate protection projects

good to know...

- ▶ Realisation immediately possible
- ▶ Compensation level freely selectable, also partial compensation
- ▶ Available online: CO2 emission calculator
- ▶ Corporate certificate for you with all compensated flights
- ▶ CO2 compensations are tax deductible in Switzerland
